|----------|---|-----------|
| <b>1</b> | <b>Introduction</b>   | <b>4</b>  |
| <b>2</b> | <b>802.11 Overview</b>  | <b>5</b>  |
| 2.1      | 802.11 Standards . . . . .  | 6         |
| 2.2      | Types of Networks and Distribution System . . . . .                     | 6         |
| 2.3      | Network Services . . . . .  | 6         |
| 2.4      | 802.11 MAC Specifications . . . . .                                     | 7         |
| 2.5      | Framing and frame spacing . . . . .                                     | 8         |
| 2.6      | Power Management in 802.11 . . . . .                                    | 10        |
| 2.6.1    | Power Saving in Infrastructure network . . . . .                        | 10        |
| 2.6.2    | Power Saving in Independent BSS . . . . .                               | 12        |
| <b>3</b> | <b>Smartphone Usage with Wi-Fi</b>                                      | <b>13</b> |
| 3.1      | Usage Pattern . . . . .   | 13        |
| 3.2      | Usage Scenario . . . . .  | 14        |
| 3.3      | Issues Related to Usage . . . . .                                       | 14        |
| <b>4</b> | <b>Techniques for efficient WiFi usage on smartphones</b>               | <b>14</b> |
| 4.1      | Techniques to Reduce Power Consumption by Wi-Fi Clients . . . . .       | 15        |
| 4.2      | Techniques to Reduce Power Consumption by Wi-Fi Access Points . . . . . | 18        |
| <b>5</b> | <b>Potential Improvements</b>   | <b>20</b> |
| <b>6</b> | <b>Conclusion</b>   | <b>20</b> |

## List of Figures

|    |  |    |
|----|--|----|
| 1  | independent BSS or Ad-hoc network . . . . .  | 6  |
| 2  | infrastructure BSS . . . . .   | 6  |
| 3  | Hidden Node . . . . .  | 7  |
| 4  | Exposed node . . . . .   | 8  |
| 5  | Generic 802.11 MAC frame . . . . .   | 8  |
| 6  | Interframe spacing, Adapted from [6] . . . . .   | 10 |
| 7  | Unicast frame transmission in Infrastructure BSS . . . . .                                 | 11 |
| 8  | Multicast and Broadcast frame transmission in Infrastructure BSS . . . . .                 | 12 |
| 9  | Frame transmission in IBSS using ATIM . . . . .  | 12 |
| 10 | Traffic generated by applications in smartphones . . . . .                                 | 13 |
| 11 | Classification of approaches to reduce power consumption by Wi-Fi in smartphones . . . . . | 14 |
| 12 | Adapted from Coolspots, Pering et. al., Mobisys'06 . . . . .                               | 15 |
| 13 | Overview of Catnap [4] . . . . .   | 17 |
| 14 | Traffic flow using Catnap[4] . . . . .   | 17 |
| 15 | Bluetooth enabled Coolspots within Wi-Fi enabled Hotspots [9] . . . . .                    | 18 |
| 16 | Example of Dozy AP . . . . .   | 19 |
